KITCHENS

“ I believe that the design process is a collaboration between myself and my clients. Working with you, your designer or architect, to produce a bespoke design that’s perfectly tailored to you, your family and your living space. ”

Classic British *Kitchens* with a twist

Design Studio

The drawing board

Our kitchens are truly bespoke so the design process is so important to achieve the kitchen to suit your home and your budget.

The first step on the design journey is a relaxed design meeting where we will thoroughly discuss your wish list for your new kitchen.

From this meeting we will prepare a design and quotation for your consideration.

Twist

Classic yet unique

While our designs are ultimately classic in principle each kitchen has a unique twist.

Guided by your own distinct taste and personality, we add a few individual touches that make the kitchen stand out as your own.

Whether it's a brightly coloured drawer lining, a bespoke worktop profile or a Beryl-leg table, we always aim to add that extra twist of design flair.

Craft

Manufacture

Each kitchen is hand crafted using a mix of traditional and modern technology, ensuring we deliver the highest quality product that is built to last.

We only use the best materials and components in our manufacture guaranteeing reliability and durability.

Sprayed and hand painted finishes are offered in any colour.

Fit

The installation

Once the kitchen is ready our factory and fitting teams will work together to ensure each piece is packaged and delivered with care and attention.

Having our own dedicated fitting teams allows us to maintain the same attention to detail throughout every stage of the design journey, all the way from the Designer's pen to the Fitter's toolbox.

Lansdowne Kitchen - featuring the 'Egg' Island

Lansdowne Kitchen - featuring C shaped Island

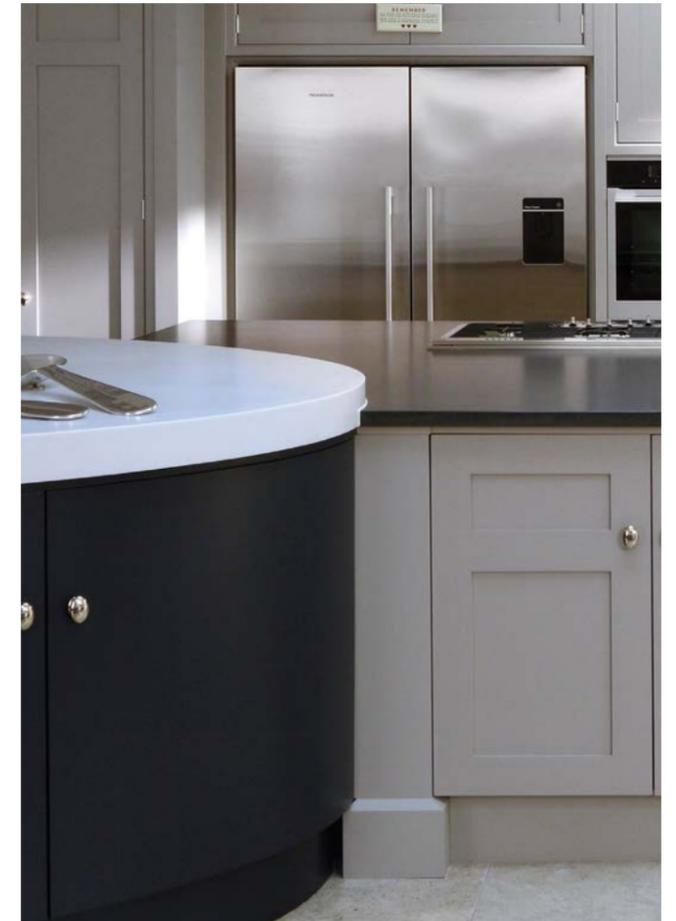

Edwardian Kitchen - featuring Lollipop Larder

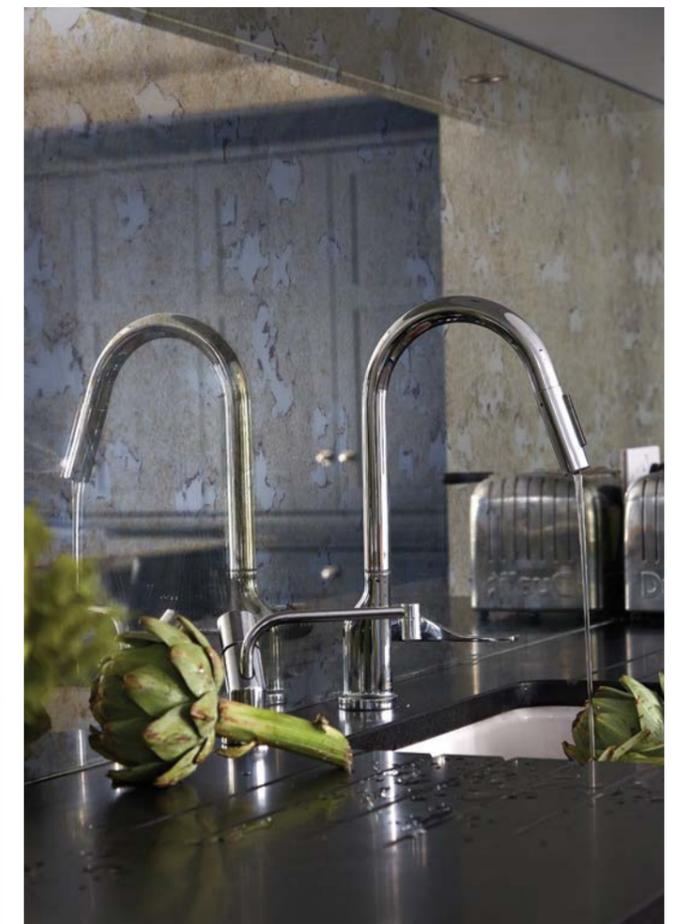

Lansdowne Kitchen - featuring Georgian Larder

The Cooks Kitchen - for Gordon Ramsay
